ASHGROVE ADVENTURE VIRTUAL CAMP

OP's Virtual Challenge

Course

As with all OP activities, remember there is no running, jumping, or throwing of people & objects! If you get stuck, feel free to email Rusty at

jmmurphy417@msn.com . She will do her best to get back to you with a hint to help along the way. And most of all remember there is no right or wrong but only SAFE!!

Have Fun & let us begin!

Barbed Wire Fence. from Australia. 2003.

Story: You and your medical group walk across the great Australian Outback to get to a patient out in the field you suddenly run across a tall barbed wire fence holding in the cattle that are being raised. You have to find a way to get under it, without touching it and without breaking it down. If anyone touches it, then the cattle owner will be very mad and not allow you on his property, causing everyone to go back and start over.

Equipment: String and two chairs

Set up: Try the string to the chairs 3' off the floor.

Activity: Once everyone in your group gets under the string lower it 6" and try again. Keep going, lowering it after each time you all make it across. Remember, you may not touch the string at all. See how low you can go!
